

ECPI GLOBAL LONGEVITY WINNERS INDEX

RULE BOOK

January 2025
Version 3.0.3

ECPI Srl is a member of Confluence

MARKET REALTY

The ECPI Global Longevity Winners Equity Index is an equally weighted equity index designed to offer investors exposure to listed companies in Global developed markets, characterized by a positive ESG profile and that are the ones best placed to grasp the benefits deriving from life expectancy increase and aging population.

INDEX FAMILY IDENTIFIERS

BLOOMBERG TICKER	REFINITIV RIC	INDEX NAME
GALPHLWP Index	.GALPHLWP	ECPI Global Longevity Winners Price Index
GALPHLWR Index	.GALPHLWR	ECPI Global Longevity Winners Total Return Index
GALPHLWN Index	.GALPHLWN	ECPI Global Longevity Winners Net Return Index

INDEX REBALANCING

Semi-Annually, on the Selection Date immediately preceding the relevant Effective Rebalance Date, index constituents are selected in accordance with the index eligibility criteria as new constituents of the index in order to ensure market representation. If the review day falls on a holiday, the subsequent working day will be considered.

REBALANCING TIMETABLE		
TIME REFERENCE	ACTION	WHEN
T ₀	Selection Date of the new constituents	1st Friday of Jan, Jul
T ₁	Equal Weight Reference Date	3rd Monday of Jan, Jul
T ₂	Proforma Period	4 days of Proforma, starting 3rd Monday of Jan, Jul
T ₃	Effective Rebalance Date: the new index is effective	3rd Friday (closing) of Jan, Jul

EQUITY UNIVERSE

Every six months ECPI reviews the index constituents in order to ensure market representation.

ECPI has identified six sectors as being best positioned to benefit from the longevity trend, both in terms of:

- Additional turnover on existing products/services and/or
- Additional turnover from new products/services

Financial

- Growing demand for Life Insurance as a private supplement to public retirement schemes (e.g. reforms aiming at creating a Third pillar besides public pensions and pension funds)
- Growing demand for private Health insurance schemes covering a wider range of events (e.g. welfare reforms in continental Europe)

Real Estate

Increasing demand for healthcare infrastructures and equipped facilities (e.g. residential districts and/or hospices)

Healthcare – Pharma and Medical

Increasing demand for health-related products and services. The elderly, together with chronically ill and disabled people, already make up the largest share of healthcare expenditures

Technology & Industrial

- Increasing demand of cost saving technologies in the healthcare industry (e.g. devices for personal data gathering, sharing and elaboration)
- Rising demand for home-technology solutions (e.g. health monitoring)
- Rising demand for safety and security devices (e.g. home automation systems)

Consumer

Growing relevance of 50+ cohort in terms of consumption capacity: the willingness to keep high life styles and consumption habits and better health conditions will lead to an increase in discretionary spending (e.g. Tourism & Entertainment as well as Food & Cosmetics).

To be eligible for inclusion in the ECPI Global Longevity Winners, a stock must satisfy the following criteria (in which case, it will be an “eligible stock”):

Index Initial Universe:

1. It belongs to one of the following 5 sectors/industries:
 - Financial
 - Real Estate
 - Pharma and Medical

- Technology & Industrial
- Consumer

2. It is listed on a Global Developed Market

COUNTRY TABLE		
Australia	Hong Kong	Portugal
Austria	Ireland	Singapore
Belgium	Israel	Spain
Canada	Italy	Sweden
Denmark	Japan	Switzerland
Finland	Luxembourg	United Kingdom
France	Netherlands	United States
Germany	New Zealand	
Greece	Norway	

3. The issuer of the stock must have a minimum market capitalization of € 500 million
4. The average daily traded value of the stock over the last 6 months shall be equivalent to a minimum of € 10 million

ESG Investable Universe:

5. Company has a positive ECPI ESG Rating (from E- to EEE).
6. The following Normative & Controversy Screening is applied:
- o Companies with a poor ESG profile (ESG Rating = F) are excluded.
 - o Companies involved in structural, repetitive, and severe controversies or violations of the:
 - UN Global Compact
 - UN Guiding Principles on Business and Human Rights (UNGPs)
 - OECD Guidelines for Multinational Enterprises (as far as relevant)
 - ILO Conventions
 are excluded
7. Companies involved in "baseline" controversial activities as defined below are excluded from the Investable Equity Universe:
- Controversial Weapons** (Cluster Bombs, Antipersonnel Landmines, Nuclear Weapons, Biological Weapons): a company producing controversial weapons is considered "Not Eligible" regardless of the amount of revenues generated by the sale of these products.
 - Tobacco**: a company producing tobacco products or products that are instrumental for the sale of tobacco products, or distributing tobacco products, is considered "Not Eligible" if revenues originated from this business activity are greater than 2% of total sales (threshold considered for "Distributors" is 5%).
 - Coal Extraction**: company involved in the mining of coal is considered "Not Eligible" if revenues originated from this business activity are greater than

5% of total sales.

- d. **Coal Power Generation:** company involved in coal-based electricity generation is considered “Not Eligible” if revenues originated from this business activity are greater than 50% of total sales.

INDEX SELECTION

The index selects the first 40 highest capitalization stocks under the diversification constraint specified below:

- a. **Sector Diversification Criteria** – for each sector/industry, the number of constituents must be proportional to the weight of the sector/industry within the selection universe

BUFFER RULE

For all current constituents, a tolerance of 20% is applied to the market capitalization and 6-months daily average value traded limits. Therefore, a constituent will be allowed to remain in the index if it has a minimum market cap of € 400 million and a minimum liquidity of € 8 million.

Item 7. Data and standards used	
<p>(a) Data input.</p> <p><i>(i) Describe whether the data are reported, modelled or sourced internally or externally.</i></p> <p><i>(ii) Where the data are reported, modelled or sourced externally, please name the third party data provider.</i></p>	<p>Company analyses draw on a range of reliable and publicly available sources to create a transferable, equitable and auditable approach. Where possible, ECPI aims to use objective information that is easily measured and quantified and less subject to bias and opinion. In cases where an indicator is important to capture, but not easily quantifiable, ECPI process works to reduce bias, by identifying clear and unambiguous rules for assigning scores.</p> <p>Sources include:</p> <ul style="list-style-type: none"> • Company annual reports • Company sustainability reports, environmental reports, CSR reports or similar • Company websites • Regulatory data (from the regulators in the country/countries where the company is incorporated and/or listed) • Information providers and search engines • Media and news services (including newsletters from local and international institutions and NGOs). • Screening of company's participation in international institutions • Screening of company's certifications • Screening of company's awards • Thematic websites promoted by international non-profit organizations • Company Investor Relations departments, when necessary. In such cases, we try to obtain written answers in order to be able to store them in the company's records
<p>(b) Verification and quality of data.</p> <p><i>Describe how data are verified and how the quality of those data is ensured.</i></p>	<p>The ESG data is sourced externally, from ECPI, the ESG research provider. ECPI delivers ESG scores and ratings information as well as involvement in controversial sectors of activity and an assessment regarding the UNGC principles. For details on ECPI ESG research, please refer to ECPI ESG Methodology Document.</p> <p>The provider has been selected by the Administrator based on an assessment of its existing processes to ensure the reliability and representativeness of the ESG-related data. The data provider has established processes in accordance with accepted and established market standards that ensure the permanent quality and reliability of the ESG-data provided.</p> <p>The verification and quality of data are checked both externally and internally by automated and manual quality assurance processes.</p> <p>The quality assurance process includes:</p> <ul style="list-style-type: none"> • Systematic peer review for all issuers that are newly assessed • Systematic peer review for all significant changes during the annual update • Periodic spot checks for certain high-risk industries/issue areas by research leads • Periodic data comparison with third-party sources, including government and industry databases
<p>(c) Reference standards</p> <p><i>Describe the international standards used in the benchmark methodology.</i></p>	<p>The rating criteria have been developed in accordance with ICCR's "Principles for Global Corporate Responsibility: Benchmarks for Measuring Business Performance" and is inspired by the principles developed by International Bodies dedicated to Responsible Investment such as UN Global Compact (www.unglobalcompact.org), the Global Reporting Initiative (www.globalreporting.org) and UN PRI (www.unpri.org).</p>
<p>Date on which information has been last updated and reason for the update:</p>	<p>1 January 2025</p>
